Content

Animations and Effects:

Adding animations to text and objects

Using transitions between slides

Customizing Master Slides:

Creating consistent templates across presentations

Embedding Media:

Adding audio and video to slides

Animations and Effects

Purpose: Add visual interest and engagement to your presentations.

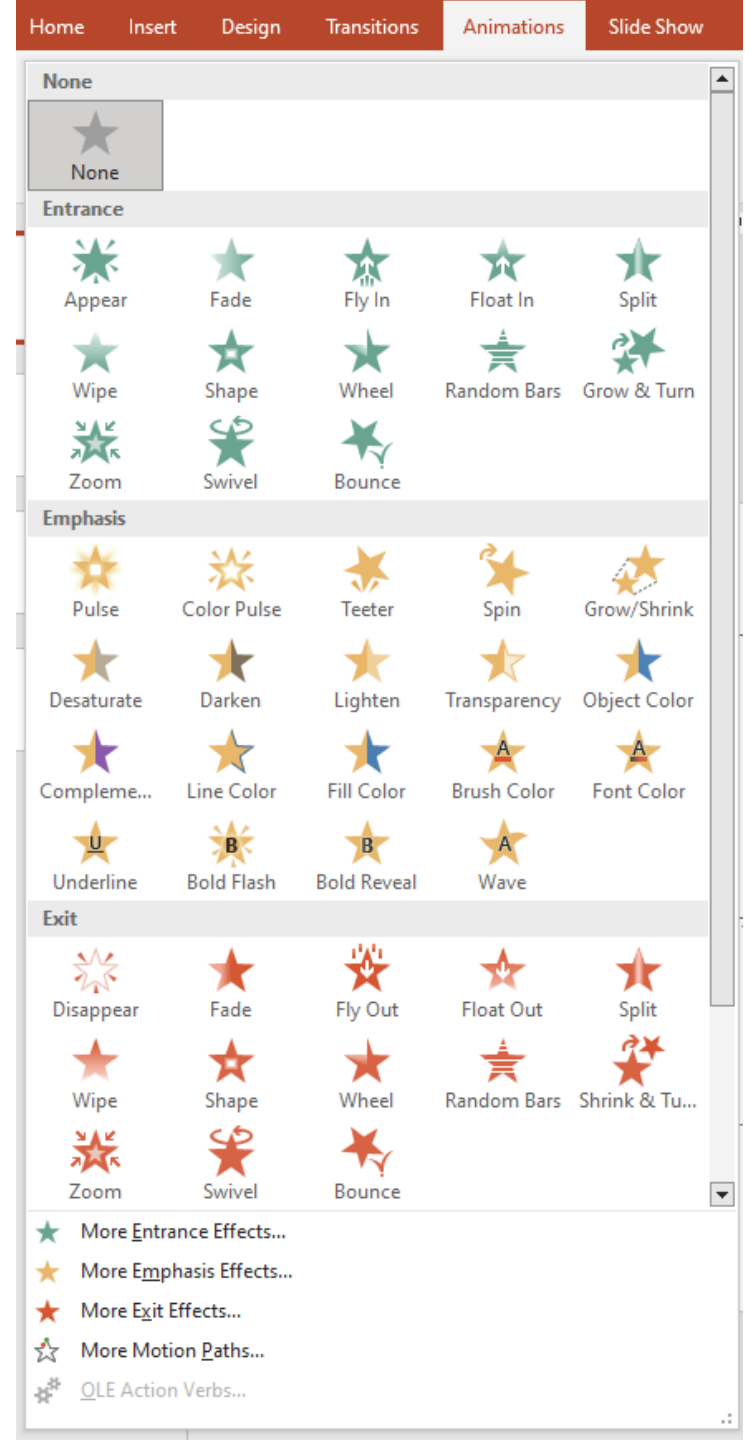

Types:

- Entrance animations

- Exit animations

- Emphasis effects

- Path animations

Creating Animations

Steps:

1. Select an object.
2. Go to the "Animations" tab.
3. Choose an animation effect.

Customizing Animations

Options:

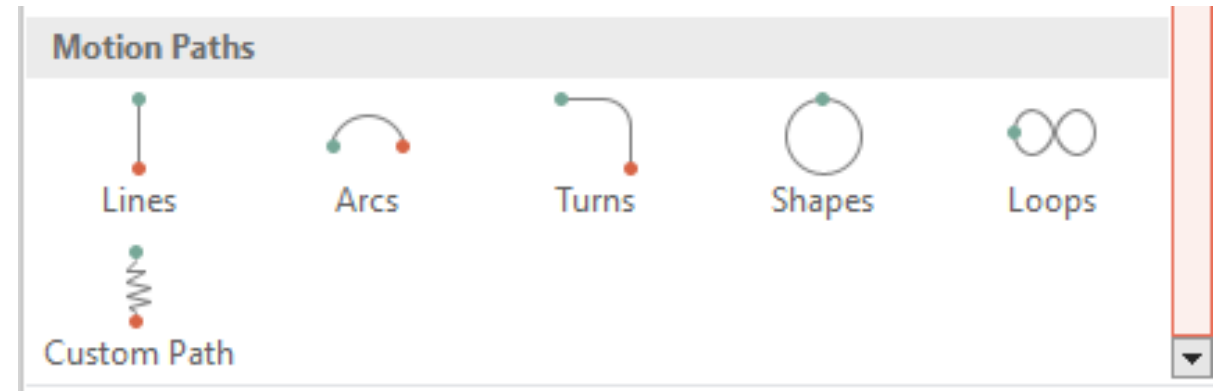

- Speed
- Timing
- Trigger
- Sound effects

Creating Motion Paths

Purpose: Define the path that an object will follow.

Steps:

1. Select an object.
2. Go to the "Animations" tab.
3. Choose a path animation.
4. Customize the path.

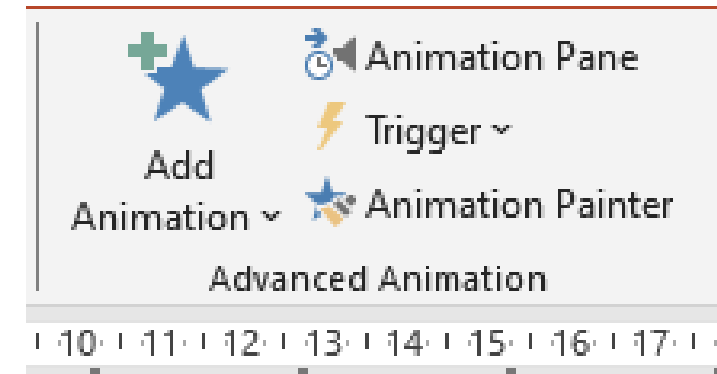

Using Triggers

Purpose: Start an animation based on an event.

Options:

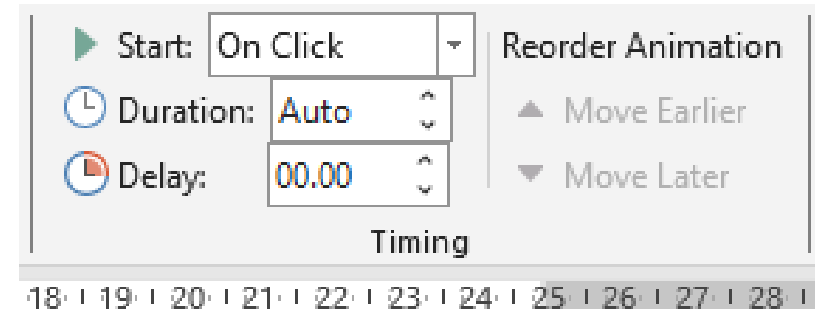

1. Click
2. Mouse over
3. After previous animation
4. With previous animation

Customizing Transitions

Options:

- Speed
- Sound effects
- Duration

Using Morph Transitions

Purpose: Create smooth transitions between slides.

Steps:

1. Duplicate a slide.
2. Make changes to the duplicate.
3. Apply a morph transition.

Embedding Media

Types of Media:

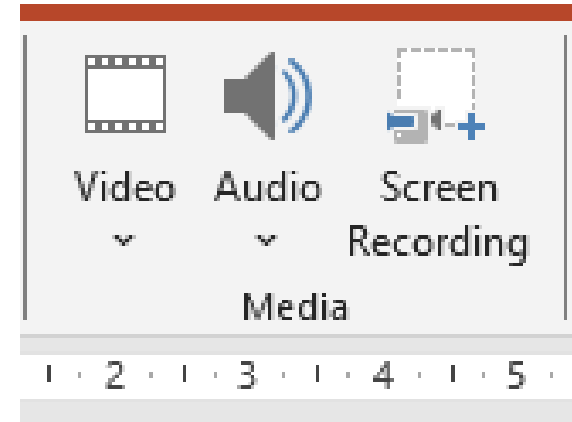

- Audio
- Video
- Online content

Embedding Audio

Steps:

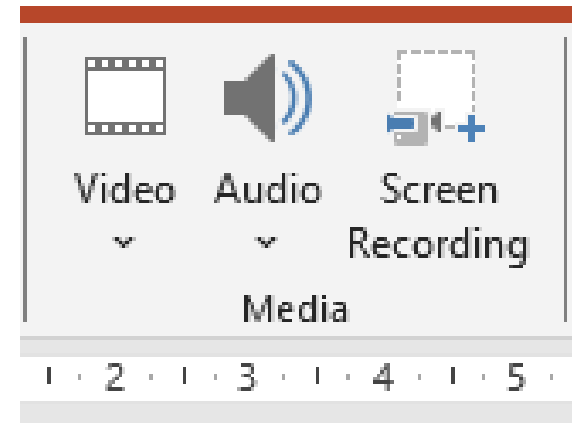

1. Go to the "Insert" tab.
2. Click "Audio."
3. Choose a source.

Embedding Video

Steps:

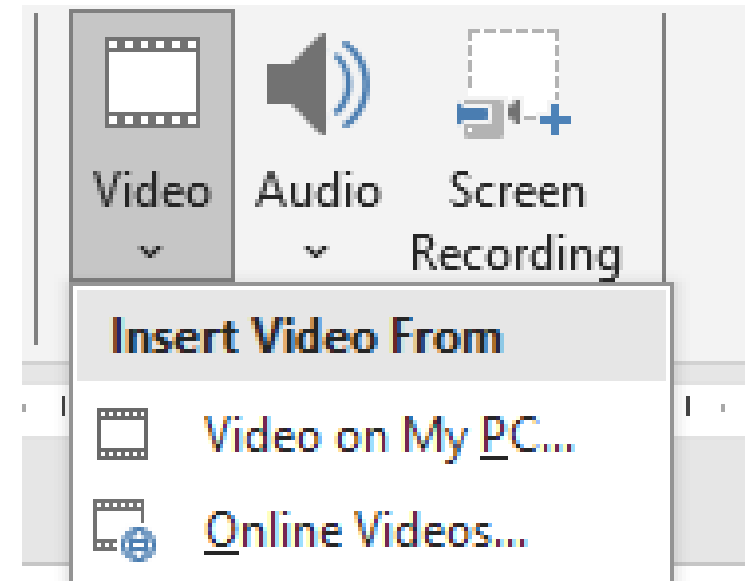

1. Go to the "Insert" tab.
2. Click "Video."
3. Choose a source.

Embedding Online Content

Steps:

1. Go to the "Insert" tab.
2. Click "Online Video."
3. Search for and embed the content.

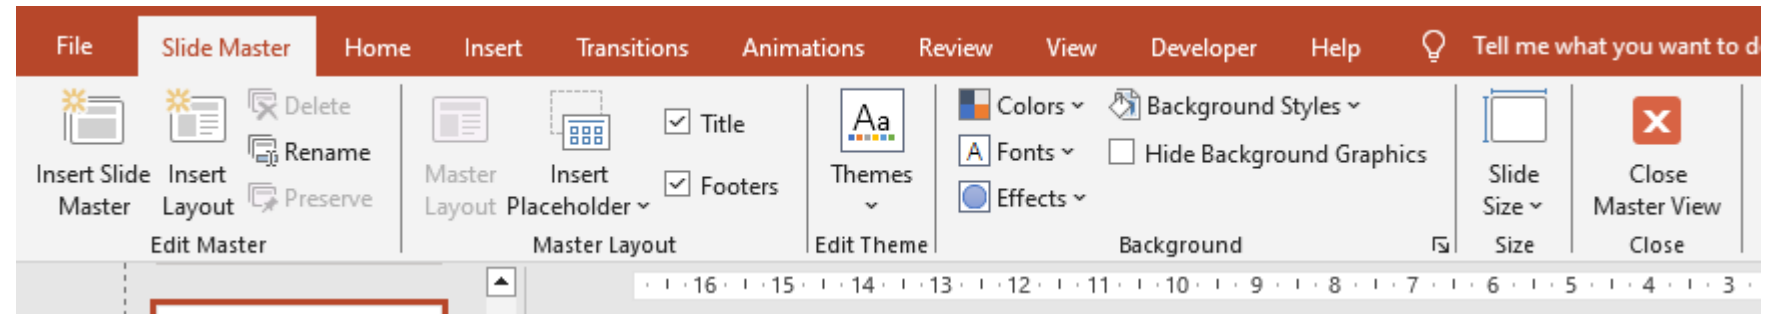

Customizing Master Slides

Purpose: Create consistent elements across your presentation.

Elements:

- Backgrounds
- Headers
- Footers
- Placeholders

Creating a Master Slide

Steps:

1. Go to the "View" tab.
2. Click "Master" and choose "Slide Master."
3. Customize the master slide.

Applying Master Slides

Steps:

1. Create new slides based on the master slide.
2. Modify individual slides as needed.

Using Themes

Purpose: Apply a consistent look and feel to your presentation.

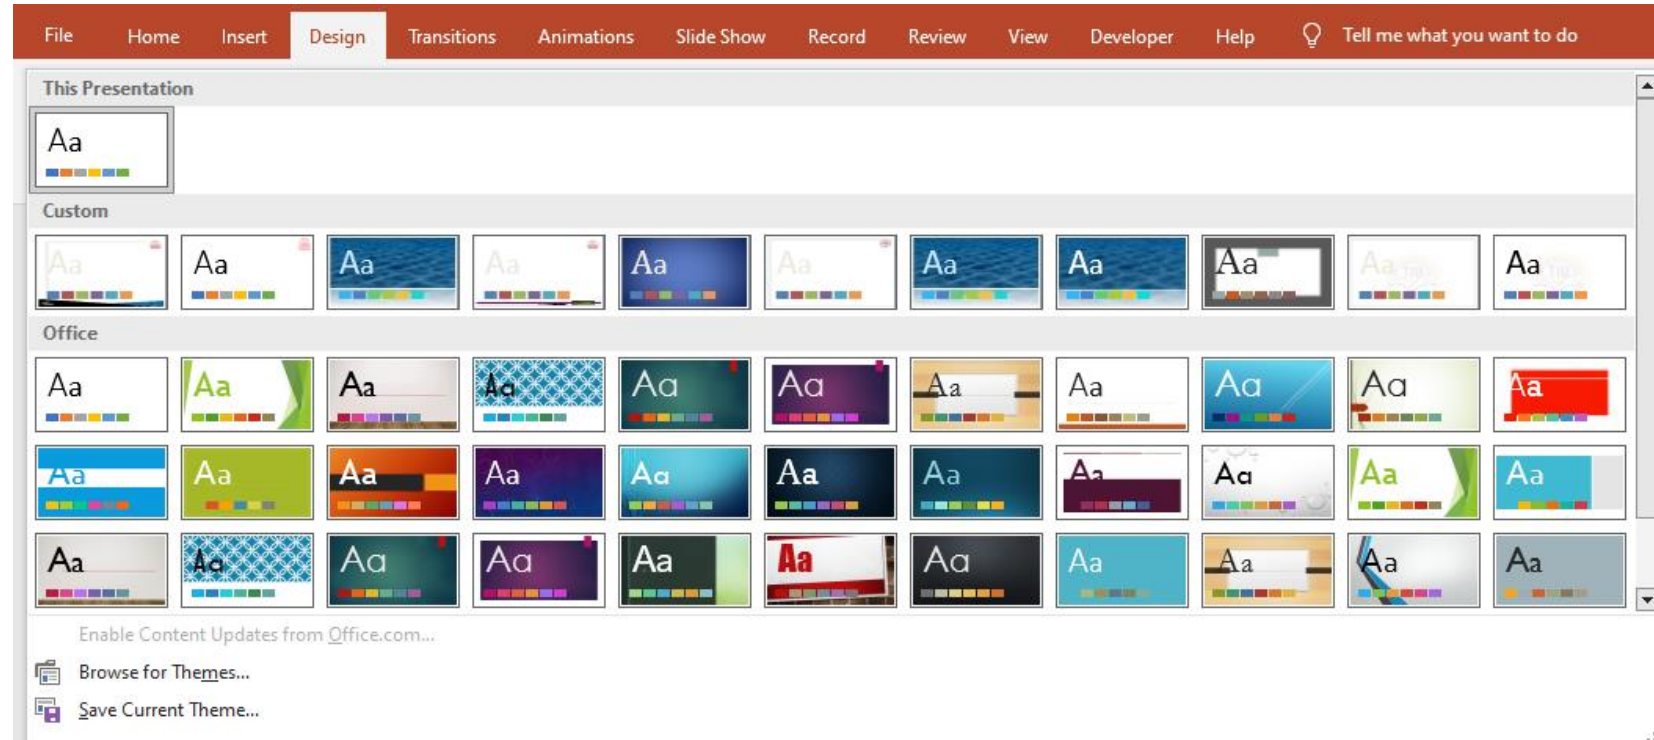

Options:

- Colors
- Fonts
- Backgrounds

Customizing Themes

Steps:

1. Go to the "Design" tab.
2. Choose a theme.
3. Customize the theme elements.

Exercise 1: Creating a Presentation with Animations

Task: Create a presentation with animated text and images.

Instructions:

- Choose appropriate animation effects and triggers.

Exercise 2: Using Morph Transitions

Task: Create a presentation with smooth transitions between slides.

Instructions:

- Duplicate slides and apply morph transitions.

Thanks
