

MEDICAL

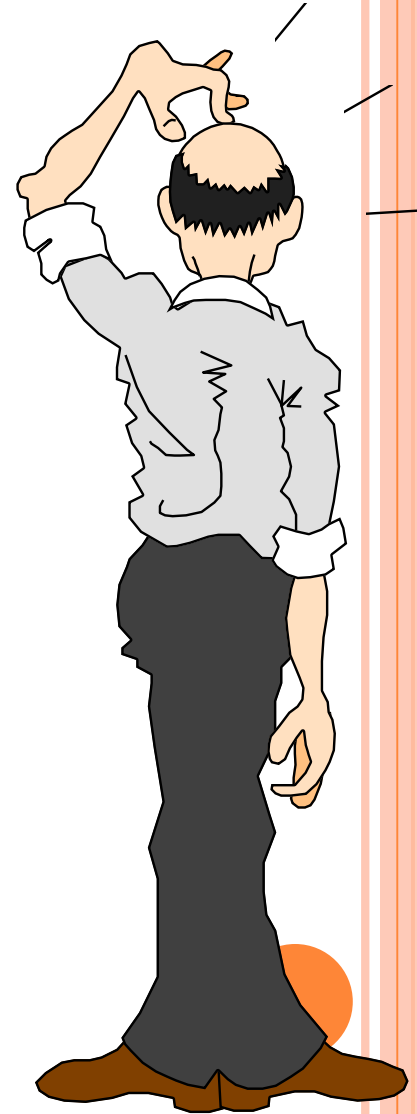

TERMINOLOGY

MEDICAL TERMINOLOGY

- Objectives:
- New students to Medical Terminology often become confused by strange spelling and pronunciation.
- Approximately 75% of Medical Terms are based on either **Greek** or **Latin**

COURSE DESCRIPTION

- A study principles of medical word building. Provides medical vocabulary including anatomy, physiology, systems, diagnostic testing and pharmacology.

ORIGIN OF MEDICAL TERMS

- Hippocrates was a Greek physician and is known as the “father of medicine.”
- 75% of medical terms are based on either Greek or Latin words.

COURSE OBJECTIVES

- Apply basic principles of medical word building.
- Correctly pronounce medical terms.
- Define common medical terms.
- Relate common medical terms to human anatomy and physiology; common disease states, pharmacological categories and diagnostic tests.
- Identify the medical terminology in medical record reports.

LESSONS

- 1. Basic Elements of a Medical Word
- 2. Suffixes: Surgical, Diagnostic, etc
- 3. Prefixes
- 4. Different body systems and organs
- 5. Medical instruments

A BUSY COURSE!

- Are you feeling like a lot of information is about to come your way?
- The answer is **YES.**

NOW, LETS BEGIN

Basic Elements of Medical Word

MEDICAL DICTIONARY USE

Look Up Unfamiliar Terms

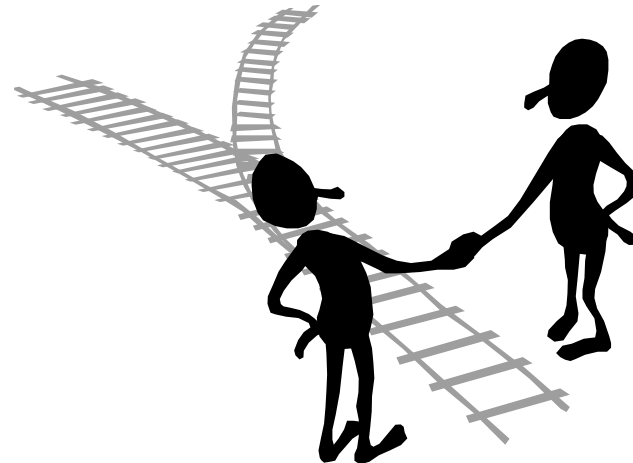

WORD PARTS ARE THE KEY!

- Four basic types of word parts are used to create complex medical terms:
 - Word roots
 - Combining forms
 - Suffixes
 - Prefixes

WORD ROOTS (WR)

- Usually derived from Greek or Latin
- Frequently indicates a body part
- Most medical terms have one or more word roots

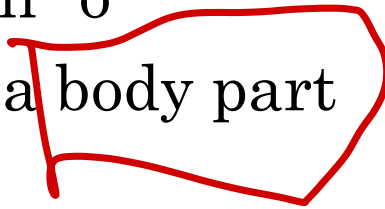

EXAMPLES OF WORD ROOTS

<u><i>Greek Word</i></u>	<u><i>Word Root</i></u>
Kardia (heart)	Cardi 
Gaster (stomach)	Gastr 
Hepar (liver)	Hepat 
Nephros (kidney)	Nephr
Osteon (bone)	oste

COMBINING FORMS (CF)

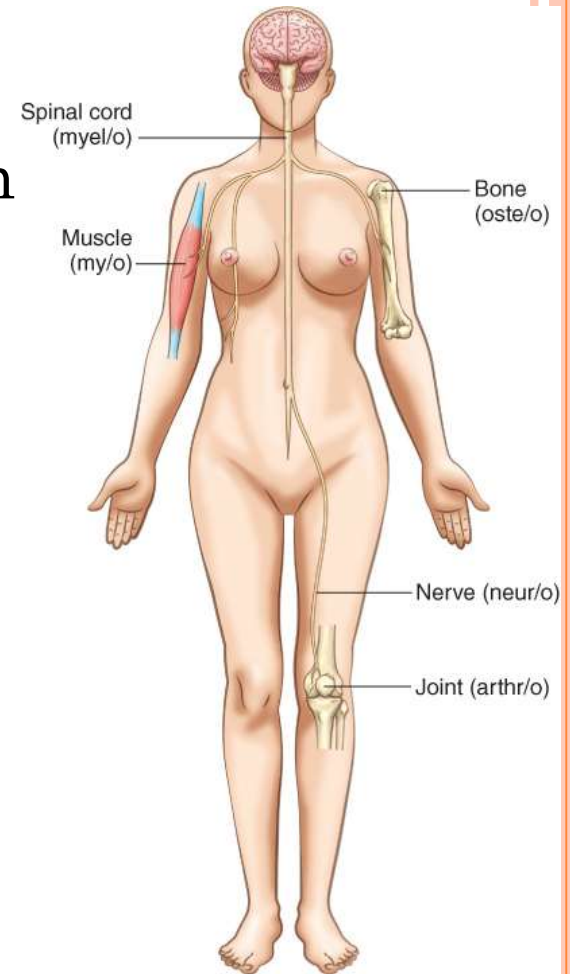

- Combining Form (CF) is a Word Root (WR) plus a vowel, usually an “o”
- Usually indicates a body part

COMBINING FORMS EXAMPLES

- Cardi/ + o = cardi/o
- gastr/ + o = gastr/o
- hepat/ + o = hepat/o
- nephr/ + o = nephr/o
- oste/ + o = oste/o

heart
stomach
liver
kidney
bone

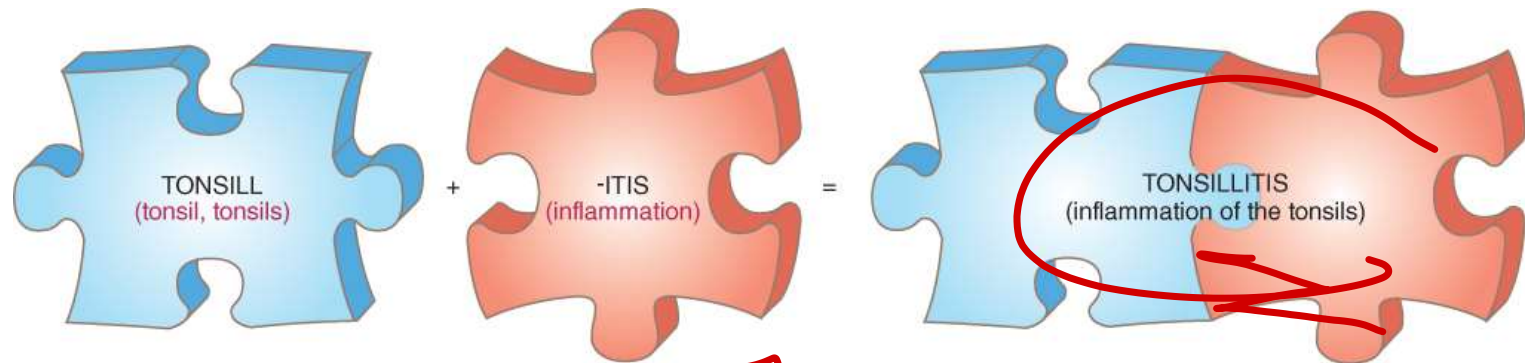

SUFFIXES

- Word Ending
- Suffix usually indicates a procedure, condition, disease, or part of speech
- Usually derived from Greek or Latin

SUFFIXES

- Example:

tonsillitis
inflammation

EXAMPLES OF SUFFIX

Sublid

○ Arthr/o
joint

-centesis
puncture

Arthrocentesis
puncture of a joint

○ thorac/o
chest

-tomy
incision

Thoracotomy
incision of the chest

○ gastr/o
stomach

-megaly
enlargement

Gastromegaly
enlargement of the stomach

PREFIXES

- Word element located at the beginning of a word
- Changes the meaning of the word
- Usually indicates a number, time, position, direction, color.

number
color
Time
position
direction

mom

ang

EXAMPLES OF PREFIX

○ ~~A-~~

without

mast
breast

○ ~~hyper-~~

excessive

~~therm~~
heat

○ ~~intra-~~

in

muscul
muscle

~~-ia~~

condition

~~-ia~~

condition

~~-ar~~

relating to

Amastio

invol. muscular

in

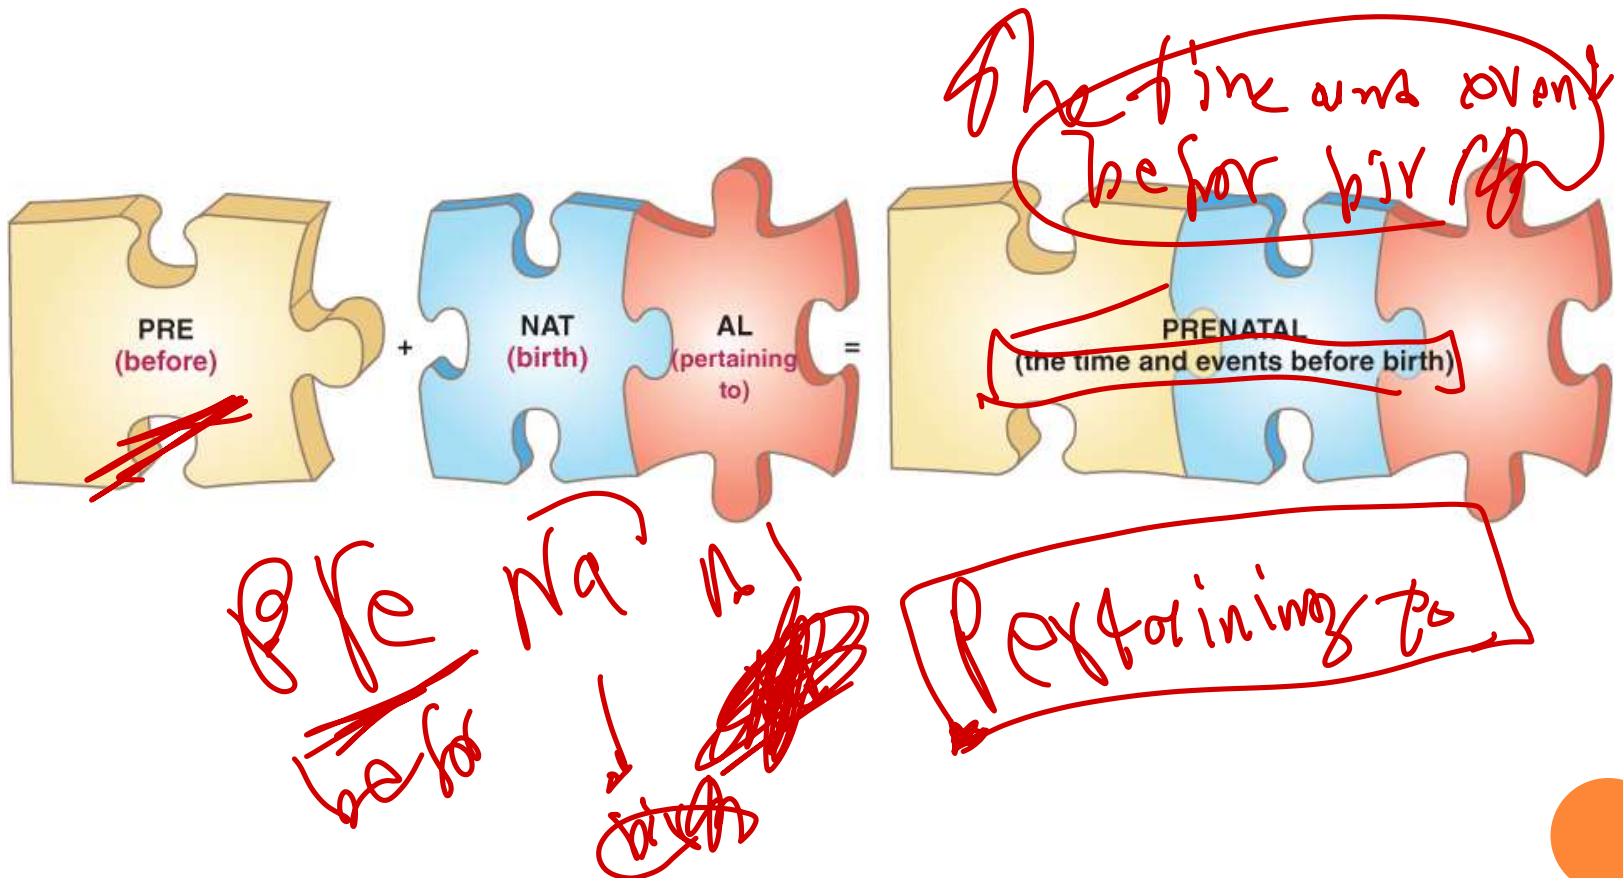

relating to

muscle

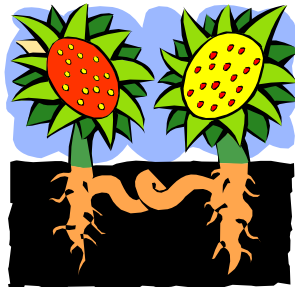

PREFIXES

- Example:

ROOT WORDS

- A root is the foundation or basic meaning of a word
- May appear with a prefix or suffix, or between a prefix or suffix.

- cardi - root for heart

- -itis suffix means inflammation
- Nephritis means inflammation of the kidney

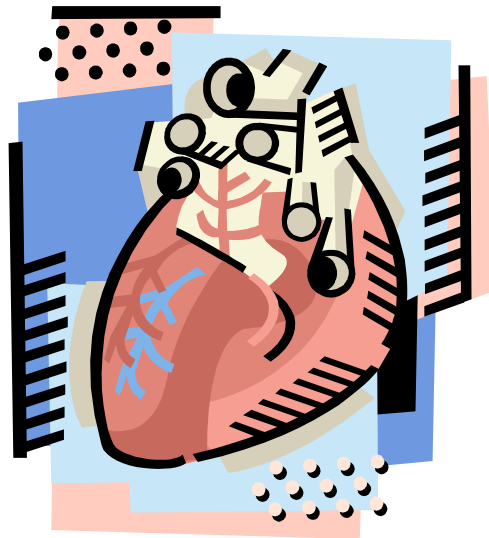

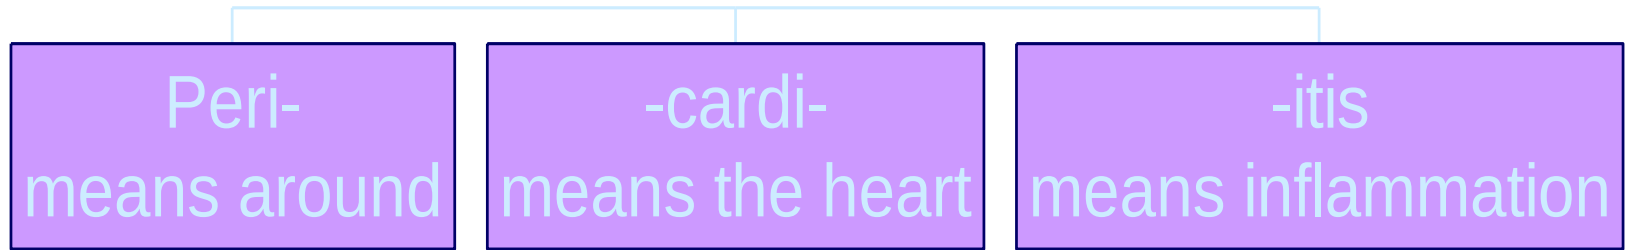

BREAK DOWN AND DEFINE THE
FOLLOWING MEDICAL TERMS.

- pericarditis
- leukocyte
- hepatitis
- neuroplasty

PERICARDITIS

Pericaridits

LEUKOCYTE

- leuko- prefix means white
- cyte - root word means cell
- leukocyte means white cell

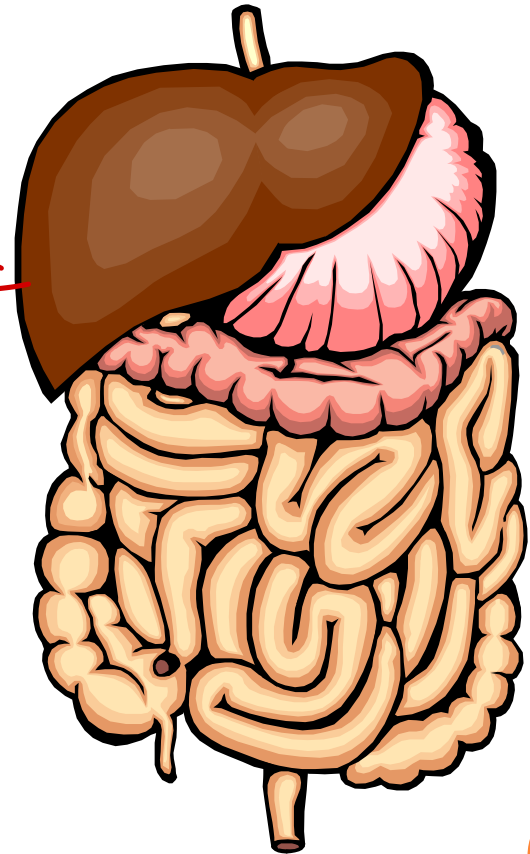

leukocytes
leu ko cyte

HEPATITIS

- hepat - root word means liver
- -itis - suffix means inflammation
- hepatitis - means inflammation of the liver

Hepatitis

NEUROPLASTY

NeuroPlasty

- neuro - root word means ~~nerve or nerves~~
- -plasty - suffix means surgical repair
- ~~neuroplasty~~ means surgical repair of the ~~nerve~~

COMBINING FORMS

- Combining form consists of the word root and a connecting vowel to make it easier to pronounce and attach another root word or suffix.
- Combining form for heart is cardi
- Combining form associated with cells is cyt

info

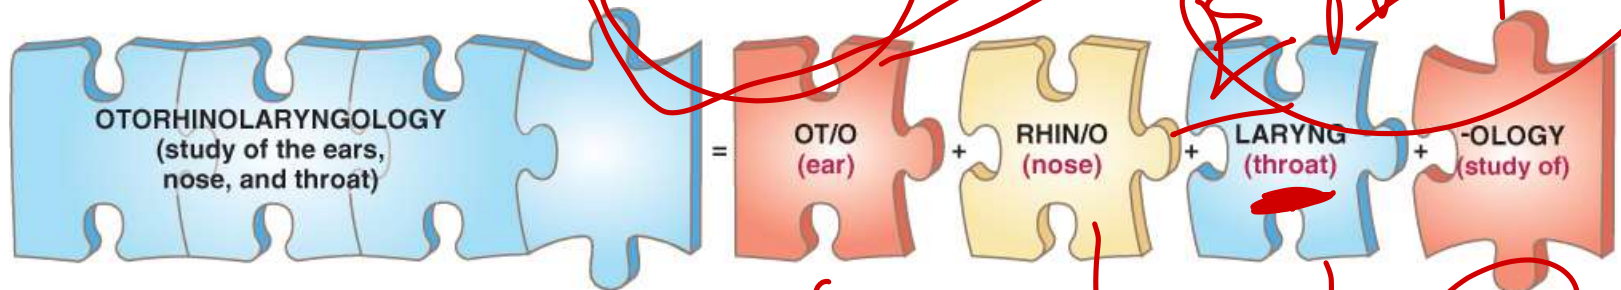

BASIC RULES FOR THE COMBINING VOWEL

- The combining vowel is not used when the suffix begins with a vowel. (neur-itis)
- The combining vowel is used when the suffix begins with a consonant. (neur-o-plasty)

DETERMINING MEANINGS ON THE BASIS OF WORD PARTS

- An example to take apart:

THANK YOU
